Manifestations of Mastery

I bring dispensations from the cosmic realms, newly birthed upon the earth plane that all workers of the light may be freed from that which disempowers and lessens them.

As you breathe deeply many come to your aid in this moment of linking of energies worldwide, flocking to be by your side to clear your field of disabling patterns and emotional behaviours. Breathing deeply and opening the chakra column of light, connecting your energies all the way to the Source realms, securely held by many ... as you open yourselves fully to the realms of light, protected and assisted by many angel beings and those from the realms of love and light ... opening each of your primary chakras individually, the heart and throat, the brow, the crown ... deepening your connection with Source, widening the flow of light which streams to you ... and opening the lower chakras, solar plexus, hara, sacral and base ... and opening and activating the link chakra between your knees ... and the earth star chakra below your feet ... deep into the heart of Gaia.

And as you breathe, allow a circular flow of energy to be received, down from Source and up from Gaia ... and this flow of energy begins to form a figure of eight which crosses at your hara ... for you have activated the love current which flows in and around and through you .. as ever increasing streams of love fill your being. Ah, relaxing now into this flow and enjoying this stream of consciousness which lightens you and fills you with the universal realms, the unified field of love, connecting with the Flower of Life ... anchored to Gaia and to her grids of love and light and power ... so fully you flow with all the streams of love and light and power ... all is made available to you, all is given to you to assist you in your walk of light and of mastery.

Just sitting quietly and flowing with these energies which link each of you universally ... linked around the world on this day ...not alone dear ones, but linked with so many. You anchor to earth great streams of light and encircle the globe of the physical plane with your beauty and your love and light ... and much is also able to be received by each of you.

The energies among mankind remain dense, with pockets of brilliance among you workers of the light. And each time you open your columns of brilliant light and anchor great streams of celestial light into the grids of the earth, many are able to receive and to share in this that you bring ... the pockets of light, they spread, they link, they commence to join together, your circles of light becoming stronger and wider and invincible, able to absorb the darkness which surrounds and to lift all to a higher frequency. For as your own frequency lifts through your work of self development, self mastery, self truth, all around you are carried by the force of the light that you embody. The times are crucial and you are asked to continue to hold steady your intent ... to hold to your paths of mastery, though the energies have been fluctuating in intensity and in challenge for you. The obstacles on your path of self mastery have been relentless, for there is an acceleration and a requirement that you be free of duality, free of ancient memories and patterns of limiting behaviour so that you may embody pure light and create your highest reality, create the New World with your heart's dreams.

And so the quest has been a hectic one of challenge, as all of your limiting patterns ... those which have their origin in the earth memories you sustained in other times of service to mankind ...

have risen for view and for healing and release. The pace has been relentless, for the planetary alignments set in place within the divine plan for humanity have brought archetypal energies whose effect is to dissolve all that is not truth, all that is not love and self-love, all that is fear, all that is based on illusion, all that is without integrity and honesty, justice and equality. The world of the old dissolves around you ... awaiting the new creations you bring, but first the dissolving of the old must complete. And so you walk through your initiations past ancient patterns of limitation, progressing so far beyond formerly known perceptions of yourself. And subtly, but powerfully, you change, become masters of your own destiny, own reality.

Dear ones, the challenges are clearly seen and the task before you rises like a monolith ... but you are masters of light and great beings ... partially remembered, this mastery. And in your greatness you are able to complete your task. In love of yourself you will completely release all that is disabling, disempowering.

So much of assistance is given you. Great cosmic tools are brought to earth that you may with ease complete the release of that which ails and saddens and disempowers you. You hold mastery within, greatness is at your core ... and you are securely held as you inexorably walk that path of greatness.

You stand as beacons of light before us and we pay homage to your brilliance and to your stamina and perseverance. The challenges you have walked within are clearly seen. Within your colours of light we see the fears you hold. And we say to you that many of these fears result from ancient memories of times past when you chose to assist humanity in times of great darkness. Pain and suffering and disempowerment was experienced and you suffered greatly, shutting down many of your divine gifts in these times and incurring karmic wounds and memories which remain still within your energies, attracting to you experiences which come into your life and which mirror to you those karmic records and memories you hold.

It is your priority dear ones to completely clear and release yourself from these memories of disempowerment and pain for until the akasha of your soul is emptied of pain and disempowerment, you are unable to fully walk your path of mastery and completion, unable to be free of earthly initiations

which seek to free you from ancient patterns and ways of behaviour.

And there are tools brought to earth to most easily assist you to empty yourselves of all limitation, all pain and disempowerment. For there is the need that you be free of all limitation so that you may create in bliss and joy and freedom those heart's dreams you each hold which will form the basis for the creation of the New World, new reality.

You are asked now to ponder upon the fears you each individually hold and to name these. Fears of lack of safety, lack of security, fears of the future, fears regarding love, that there is no love for you, that you are unlovable, unable to be loved, not good enough, not capable enough, unable to step forward beyond previous perceptions of yourself, not brave enough. Fear of what is asked of you in your path of service. Fear that you will never uncover your mastery because of the disempowering nature of your wounds and patterns and behaviours. Fear of lack of support, feeling alone and abandoned and without help, feeling unable, not strong enough, not brave enough, not capable enough to cope, to grow, to move, to change. Fear of not having enough money, enough friends, enough of the daily requirements of life. Fear of poverty, fear of having no place to live, to work, to love. Fear of others, fear of their judgement and criticism of you. Fear of having no power, and fear of others' power and fear of what those who are in power may do to you. Fear of what is ahead, fear of challenges and the future. Fear that you cannot sustain the endurance of your path, for so much has been asked of you already.

And as you add each of your own individual fears, those which are your core fears, and those other smaller fears, naming these, identifying every fear that you hold .. offer these up, and surrender them, hold them out that they may be taken from you. Breathing deeply with relief to be rid of fear. And as you hold your fears outstretched within your open hands, the circle of fire of Astrea & Purity creates a forcefield around your fears and the fiery sword cuts the fears from you. And Merlin's forcefield of magic and manifestation and mastery sweeps your fears from you like a vacuum, taking all from you.

The Karmic Board offers for release the original core memories, records, experiences, beliefs, patterns, programs and behaviours which create you to have these fears ... the original core memories and records are released from your energies, crossing time, space and all dimensions to release the origin of all of the fears you have named. And karmic dispensation is given to all involved, releasing karmic cords with those with whom you have incomplete initiations, releasing you from the burden of all your fears.

For your fears dear ones bring to you under the Law of Attraction that which you fear and it is a priority for you to completely empty yourself of all fear so that you may be free of the continual patterns which sadden and disempower you. And so it is that if you have fear of poverty, and of not having enough abundance, then your patterns will revolve around having not enough, and attempting to walk past and beyond this pattern and belief that there is not enough for you. It is the fear which creates a forcefield which allows the very thing you fear to come to you.

And so it is that Merlin's forcefield of the Manifestation of Magic and Mastery is brought to earth, given to you as a powerful tool to clear yourself of all that saddens and disempowers you. Its magnetic forcefield is fuelled with love. When it is called for, and your heart is opened with trust and hope and with love as its fuel, the manifestation is offered universally to all workers of the light as a way of 'fast tracking' the karmic emptying of the akashic memories of your soul.

You are able to work with this meditation repeatedly. As you become able to identify other fears use this tool of mastery to free yourself, dear ones, for you hold the destiny of man in your hands, and you are assisted in so many ways to be free to walk your path in joy and bliss, free of all that saddens you and disempowers you.

You are held in light. You are supported in love. Many are those who are there for you to hold and help and love and guide you.

Go with God dear ones. I am Merlin.
