Mary Magdalene speaks

I Am Lady Nada and bring many blessings to all those workers of the light who receive with me this day.

From the higher realms you stand as pinpoints and beacons of light of such intensity, unaware of your magnificence, for you shine so brightly, standing so clearly defined among all of humanity. Unaware of your magnificence, for you have forgotten that you are masters come to earth.

As you breathe, many angels lift from you from all the dimensions of your being the karmic records and memories and experiences that hold you bound in this moment .. releasing you from those karmic initiations within which you walk and in which you have become stuck and lost, not knowing where to go and what is to be done to walk further, beyond your known capabilities. Infusing you dear ones with massive influx of light to clear the distortions and patterns and programs beyond which you have been unable to move forward, those which are your deepest core memories and wounds. And working with me and the angels .. acknowledging these patterns, this sadness and confusion, uncertainty and anxiety .. and offering them to me for release from your bondage. With relief and gladness, allow the heart to open again, free again to open the heart and to breathe deeply and to step forward again on this path of yours which is one of mastery and completion.

If you will open your column of light to the heavens and connect with your divine presence .. and opening all of the chakras .. the ascension chakras .. and the lower chakras which link you to Gaia and to the earth .. and allow your divine presence to descend and to be known to you and experienced .. and to open your heart and to experience great expansion of your light body .. with the influx of great streams of golden Source light washing away any obstructions, blockages, physical defects, patterns, memories and experiences that hold you bound in powerlessness.

For you hold ability to heal yourself through all dimensions of your being through the power and love of your divine presence. In this moment, with all obstructions and blockages removed, allow yourself to know that you are divine, that you are unlimited, that you hold the power of God within you, able to heal yourself of all limitation, able to anchor within your being all of your soul gifts and powers. Truly open yourself to your divinity, your unlimitedness .. open all dimensions of your being to your unlimitedness and truly know this in this moment.

As great streams of Source light continue to fill you .. and nothing remains but your divinity and your unlimitedness. Know in this moment that all is well .. that you are whole .. with all the power of God within you. Know that you hold an especial piece of the power of God, and that this piece of God that is you is unlimited and has ability to change reality, to manifest, to heal, to create and to transform. And open yourself to the entirety of your unlimitedness. Accept this and know this.

Many angels from the dimensions of Arcturus come now to repattern your energy body, your light body, all the dimensions of your being, to repattern you to your divinity, your divine blueprint .. for you have opened yourself to this and seen and experienced in this moment this divinity .. and now it is able to be accepted by you. If you will open your heart so wide now with joy to receive this repatterning .. holding

this level of the return of your divinity, sealing this and knowing that it is yours to hold and to embody.

You flow with great streams of light, circulating through the dimensions of your light body and with full flow, clear of obstructions and blockages, freely flowing with divine light, flowing through you and down through your lower chakras into the heart of the earth, into Gaia's crystal heart. You stand as living portals of the divine.

This day you are given the ability to stand as human portals of divine consciousness, and with the ability to anchor portals of light in your sacred places. The Ashtar Command stand ready to assist you to cocreate portals of Source light in your sacred space, anchored by the altars and sacred crystals and blessed belongings in your homes. You are enabled to sit in ceremony and to ask that an ascension column of light and portal of light and celestial consciousness be anchored permanently in that sacred place. And to go to your holy places, those places of peace and within nature that are special to you .. and in ceremony to request that an ascension column of light and portal of celestial consciousness be anchored in that place.

And you may sit in meditation in those portals of light .. and offer for release all that concerns and saddens and worries you .. offering up all limiting and disturbing behaviour patterns and memories and those conflicts with others, the problems and challenges .. and the portal of light will release all that holds you in disempowerment and sadness and pain, and will replenish you with great streams of light.

And you may offer up the dualities of mankind, those of hatred and war, jealousy, greed, egoic power, injustice, inequality .. all that is not of love you may offer for release into the portal in your sacred place.

And you may dream your heart's dreams of the brightest and best reality for yourself, and for mankind .. and anchor those dreams in your portal of light. And may call to the Family of Light, and the angels and Ascended Masters for the help you need to manifest those heart's dreams. Sitting within your portal of light you receive such great assistance.

And truly, the light multiplies in this way, pinpoints of great streams of Source light encircling the globe. There is joy for you in this, and empowerment .. for not only do you anchor great light for humanity, but you also receive this tool to instantaneously transmute all that is negative to its divine potential.

Consciously now you are enabled to stand as those beacons of light, and to become those portals of light, acting as great conduits of transmission, bringing light and wisdom and love and power to earth, anchoring through you and channeling into Gaia's heart that all of humanity may share.

Know and trust that many are the beings of light who walk this path of physicality with you. Great is the assistance that is there for you. Create in sacred ceremony the anchoring of an ascension column of light and portal of celestial consciousness in your sacred space, and place crystals and sacred belongings to anchor the light .. and sit in this sacred space often for meditation .. and acknowledge the feelings of sadness and disempowerment and conflict that affect you .. and offer these for release. In this

way you empty yourself of all that is disempowering and lacking in light and love .. and create a vacuum into which great streams of light may flood, bringing soul gifts and inspiration and mastery, allowing your heart's dreams to release and be known. And sitting within your sacred portal of light you may request all that you need to manifest those heart's dreams.

There is joy among your Family of Light this day at what is accomplished .. and at what lies ahead. Such joy to cocreate with our loved ones of soul family as they create the new reality, new world.
