*Mary Magdalene speaks*

#12 21 December, 2007

You are asked to take many deep breaths and to allow with sighs of relief the remnants of the old energies to be fully released from your beings, for you have been engaged in a cleansing process to allow all that is distorted, old and outdated to surface and to be clearly seen and known ... and able to be walked beyond and left behind.

If you will breathe deeply, opening your columns of light, connecting both with the heavenly realms and with the core of the crystal heart of Gaia, offering up now all of the struggle of the old, the initiations through which you have walked ... that you may accept as your own the concept of wholeness within which you now sit ... offering all the old and ancient skins of your being that these may be released from you ... that you may allow the new to arrive. For in this year you have been shedding the ancient onion skins which hold the records of the akasha of the deepest soul memories of humanity. As workers of the light you have been called to release the deepest of the patterns you have been holding on behalf of humanity, pulling all inexorably to the light with you.

You are honoured for this role and held in such high regard by all of your Family of Light, for you have laboured long and diligently to clear yourselves of all of the dualities which you have apportioned among yourselves that all of humanity may share in this release.

There is great joy and celebration as we observe the new diamond like clarity which many already embody, and the new peace which shines from you. For as you leave the old behind you rise to new frequencies of peace and of ability to manifest all that you wish to co-create. And so, for some of you already there is new found empowerment and total knowledge of your ability to create and to manifest. And wherever you walk you share this empowerment and this raising of the frequencies. You walk within a bubble of great light which radiates out in every direction, and your new-found peace and quiet joy lifts all around you.

And for others who are close to finding the deepest of peace which follows major initiations, these ones are held by the successes of those who have preceded them, sharing in the raising of new levels of integrity and truth, of self-love and knowledge of self. And others follow, at the point of stepping beyond the old and into the bravery that is required to fully leave all that is known but which no longer serves ... stepping into the brave new world of self love and acting upon the deepest of heart dreams.

Each of you is held in the arms of angels who hasten now to cocoon you with soft love, to tenderly stroke your brows and to soften their wings through your hair, to tenderly stroke your arms and legs, shedding the old, brushing away the remnants of struggle and of pain, of torment, confusion, heartbreak, doubt and fear, of anger and of hopelessness. Open your arms and give over to the angels who surround you, in the front of you and behind you, at your left and your right, above you and below you ... give over to the angels all that is left of the old, the patterns which do not serve you, the worries of the future, the issues of physical existence and of survival, the relationships which challenge and sadden and anger and confuse you, the irritations and conflicts with loved ones, family and friends, workmates and neighbours. Hand to the angels the old betrayals you have experienced from loved ones, those who have

let you down and hurt and saddened you. Hand over the pain, the regret, the anger and betrayal. Let it all go. All the hurt and sadness and fear. The old incidents which are caught and stuck in your memory, unable to be moved beyond for the daggers of pain they have left. The wounds others have inflicted upon you, beyond which you have been unable to let go and to fully forgive ... hand these to the angels, the deepest hurts and wounds and griefs.

Allow the planetary alignments to be the instruments of healing and of transformation, for this is their purpose. It is necessary only that you are willing to surrender and to release all that no longer serves you as the angels cleanse your energy body and your physical being to completely release all of the old, to allow the new to arrive ... as you continue to offer up all of the struggle of the old, offering up both the initiations behind you and those still to come within the old paradigm ... offering up all for release ... that you may accept as your own the concept of wholeness within which you now sit ... offering all the old and ancient skins of your being that these be released from you.

And as you surrender totally the old that no longer serves you so that you may totally and fully embody the new diamond-like clarity of your crystal light body, this is that which occurs, the shedding of the old bodies of light and the stepping forward with arms outstretched to pull to you the new which awaits, that shining and dancing garment of light which is your new wholeness. Shrugging off with the assistance of the angels the old bodies of light and with arms outstretched welcoming the new.

Breathing deeply and surrendering to this process, totally walking from the memories of the old, of the struggles and lacks and fears and doubts ... totally stepping from these bodies of ancient times, and fully surrendering yourself into the totality of your existence of light and of love, accepting your diamond body of light as all is restructured, recalibrated and aligned. Many symphonies of angels surround you and with soaring tones and melodic harmonies of sacred geometries they restructure and restrand, repattern, restore and align your diamond bodies of light.

You will see in this coming year the clearance of all that has saddened you in lack and in tiredness, for you will move with great ease now, able to accept all that comes to you, for you have successfully risen to heightened vibrations. Your diamond body of light brings to you new clarity and of knowing of that which brings you joy and fulfillment, satisfaction and ease ... and in this knowledge, this is what comes to you. And so you will create in this coming time from your intent, wholly from your intent and so you will be in joy, totally, for this is your own creation and you have successfully risen above the old energies of struggle.

Surrender yourself now from the fear consciousness and grid of fear of the collective so that you may rise above this also and so step above any chaos and confusion and fear. Step above this reality of the fear based grid, and know that you are whole and complete, at peace and in joy and fulfillment. Separate yourself from the fear and know that in your wholeness, only wholeness will be embodied.
